

ADC AIR

Low Voltage Compact Geothermal System

AUGUST 2023

Low Voltage = High Performance AI Enabled Heat Pump

ADC-Air provides AI enabled, low voltage, highly efficient alternatives to vintage heating and cooling. Our clients benefit with fresh indoor environments, carbon friendly operations, and easy to install solutions to achieve substantial efficiencies.

Best of all, ADC-Air customers receive affordable financing options with quick ROIs.

Our passion is to provide a comfortable indoor lifestyle with carbon friendly savings and sustainability.

ADC AIR
Low Voltage Compact Geothermal System

ADC AIR

Low Voltage Compact Geothermal System

FEATURES & BENEFITS

- Fresh indoor environments
- Highly efficient operations
- Affordable financing
- Quick ROI
- Carbon friendly
- Easy and simple installation
- Online service and maintenance
- Solar ready for added savings

APPLICATIONS

RESIDENTIAL

Pure air with app-controlled on-demand climate that can upgrade to net-zero homes.

INDUSTRIAL

Reduce your energy usage and remotely control the optimum humidity and temperature.

COMMERCIAL

Create a fresh, clean air environment for workers and customers.

INDOOR GROW

Actively purify the air, set the perfect temperature & humidity, monitor dew point, and control the entire system remotely.

ADC AIR IS PROUDLY MADE IN AMERICA

QUICK AND EASY STEPS!

FREE BUILDING ASSESSMENT

- 10-minute process to address current building condition
- Cost savings and performance analysis
- Proposal turn around time within 24-hours!

PROJECT FINANCING EVALUATION

- If project qualifies: Minimal to no capex upfront upon approval
- Energy-as-a-Service (Shared savings/monthly)
- Revenue positive DAY-ONE of operation

DELIVERABLE SCHEDULE

- Architectural, electrical and mechanical designs
- Permitting & Approvals
- Rentals, equipment & materials
- 1-WEEK

INSTALLATION & COMMISSIONING

- ADC Power Control System and ADC AIR systems
- Fully operational less than **30 DAYS!**
